Galvanized / PVC Coated Welded Iron Wire Mesh

“Golden Cup” Brand Galvanized Welded Iron Wire Mesh, made of Superior quality iron wire by automatic precision welding, has flat even surface and firm structure. With strong collectivity, it does not loosen even though a part is cut and subjected to pressure.

Galvanized by hot-dipping after welding, “Golden Cup” Galvanized Iron Wire Mesh has good anti-corrosiveness and the merits that ordinary wire nettings do not possess.

Galvanized Welded Wire Mesh is extensively used in industry, agriculture, building, transportation and mining for all such purposes as structure protection, safety isolation, breeding of poultry and animal, decoration, etc. because of its excellent properties, sturdiness, durability, economy and beautiful appearance
